icam systems

You are looking for a working environment with creative possibilities, the daily routine in an IT department and are not afraid of personal responsibility?

In your three-year dual training at IcamSystems GmbH you will be an active part of our software development from the first day and contribute to our software solutions.

Apprenticeship as IT specialist for application development (m/f/d) starting September 2022

Your training contents:

- you learn a systematic, structured and result-oriented way of working
- you learn to plan, develop and implement software according to customer requirements
- practical experience in object-oriented software development (C#, .NET Core)
- during your training, you will gain insights into topics such as web development, Kubernetes, Docker, and database systems
- you will be involved in exciting projects and have the opportunity to implement sub-projects on your own responsibility

Your Profil:

- secondary school diploma, high school diploma or equivalent
- interest in programming and your personal development
- you are motivated and can work well in a team and independently
- you are analytical, and have a mathematical and logical understanding
- good knowledge of German and English

We offer you:

- a practical and varied training program
- performance-based compensation
- cooperation in an established company with a solid customer base
- individual support with fixed contact persons
- exciting tasks in an appealing work environment with motivated and helpful colleagues who are all on a first-name basis
- you can contribute yourself and your ideas via our short communication channels
- if you perform well in the company, we will take you on as a full-time employee for an unlimited period of time after your apprenticeship

- living teamwork with flat hierarchies
- a friendly, familiar working atmosphere
- modern lounge with its own fully equipped kitchen
- fresh water and hot drinks for all employees
- various employee events
