

Are you enthusiastic about engineering and new technologies, would you like to contribute your own ideas, influence your field of activity and diversify your daily work routine? Then you are exactly right with us! In an open and motivated team, we offer you all the prerequisites for your professional success. Apply and start your career in an established company with a solid customer base.

We are looking for **YOU** to strengthen our team as

Software Developer .NET (m/f/d)

What we offer

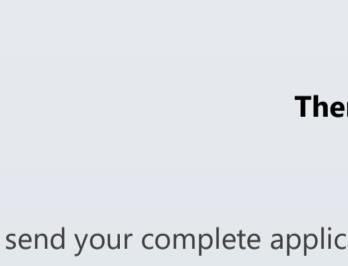

- work-life balance with flexible working times
- a friendly, family-like working atmosphere in a motivated work environment
- an attractive, modern and future-oriented workplace
- flat hierarchies
- attractive remuneration
- homeoffice
- opportunities for further education and training
- opportunity for a trial day to get to know the job and new colleagues
- 30 days of vacation
- provision of hot and cold drinks
- various discounts with our partners
- possibilities to organize breaks
- team events

Your profile

- you already have practical experience in object-oriented software development (C#, .NET Core, ASP.NET Core)
- ideally you already have practical experience in working with database systems/ORM (MSSQL, NOSQL, EF)
- you have basic knowledge of common design patterns (e.g. OOP, Clean Code)
- you are willing to take responsibility in a team and for the conceptual development of the software architecture
- you have a process-oriented and analytical way of thinking as well as flexibility, the ability to work in a team and good organizational skills
- you enjoy software development, have good communication skills and you are open and reliable

Your tasks

- you are responsible for the new and further development of our software solutions
- you develop robust and sustainable IT-systems
- you are responsible for optimizing database systems in terms of performance and scalability
- requirement analysis and its implementation are also part of your tasks

Have we made you curious?

Then apply now and join our team!
