

We are looking for the reinforcement of our team at the next possible date

IT-Administrator (m/f/d)

Your profile:

- successfully completed training or studies in an IT profession
- work experience of 5 years in the field of administration
- broad knowledge in the Microsoft environment (clients, servers, office products)
- knowledge in the area of Linux server systems
- very good knowledge in the area of your network knowledge (TCP/ IP) as well as VPN, routing and firewall
- ability to work in a team, flexibility, independent work and distinct willingness to learn
- analytical thinking and structured approach

These are your tasks:

- administration of Microsoft Windows server systems 2008 – 2019
- administration of databases (e. g. MS-SQL)
- support of the IT infrastructure (server, storage and backup systems as well as VMware clusters)
- operation and support of the e-mail / groupware systems (Exchange / Sharepoint)
- administration of the network components
- software distribution, administration and support of Windows clients (Windows 7 / 10)
- user support including problem analysis and processing (hardware and software)
- telephone system support
- ensuring and supporting IT operations during ongoing operations
- create and maintain operational documentation
- selection and procurement of hardware and software components

We offer you:

- an attractive, future-oriented workplace
- a performance-related remuneration
- an open communication culture
- flat hierarchies
- possibility of home office
